Price List 2022

Colored: QSTOCW01 Natural: QSTONW01

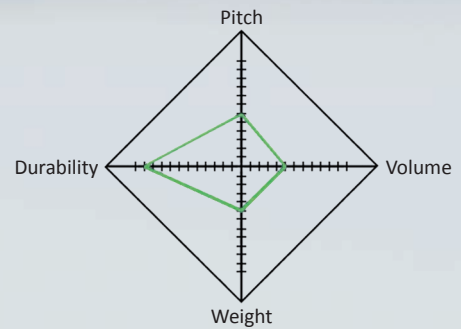

€ 36,00

WHISPER 7A

White Birch (USA)

The softest model of the QSticks. It sounds like a brush, but just a little bit stronger. Great soft sound on cymbals. For that real “whispery” sound.

Colored: QSTOCB01 Natural: QSTONB01

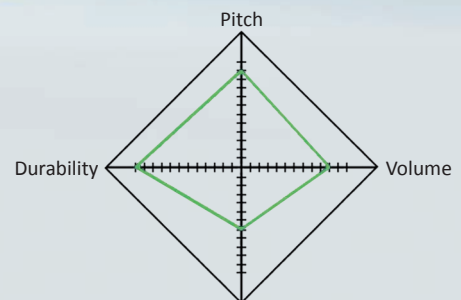

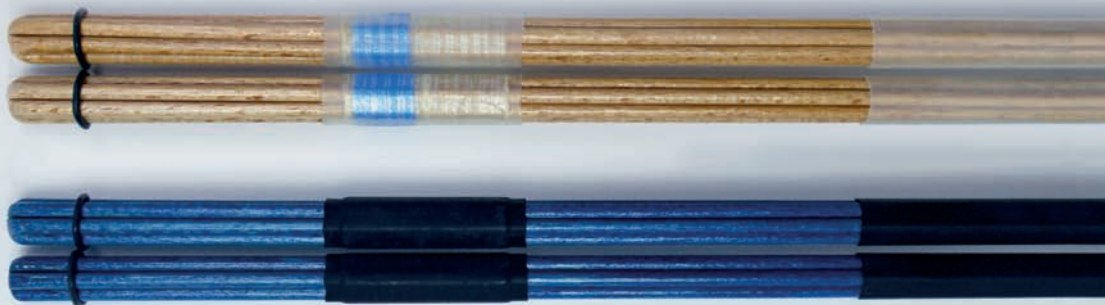

€ 36,00

BLUE 5A

Beech (NL)

A great “pointy and funky” sound. Beautiful round sound on toms, articulate on cymbals, great on the snare with rimshots.

Colored: QSTOCY01

Natural: QSTONY01

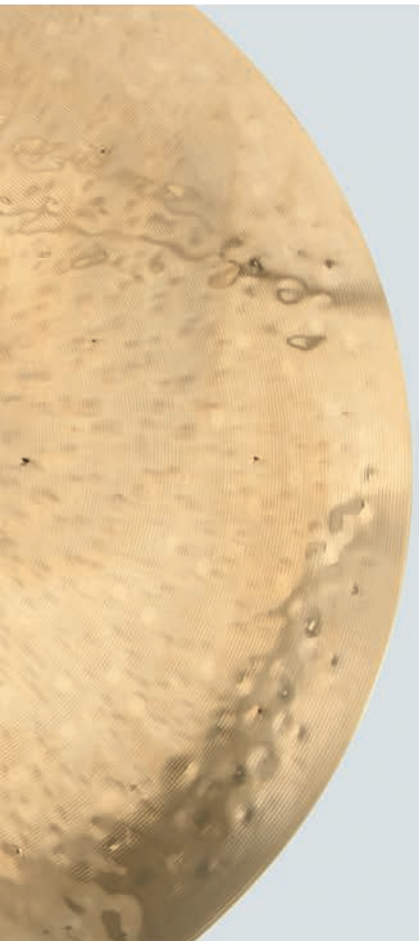

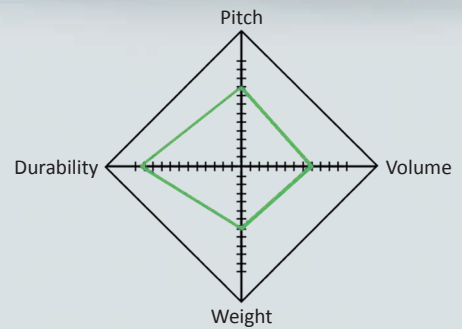

€ 36,00

YELLOW 55A

Beech (NL)

A bit stronger on cymbals, with more high tones compared to the QSticks Whisper, especially when used with rimshots.

Colored: QSTOCR01

Natural: QSTONR01

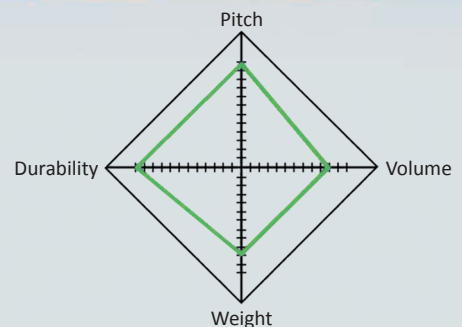

€ 36,00

RED 5B

Beech (NL)

Stronger in sound than the QSticks Yellow. Because of the revolutionary triangular grip, the broad side of the top hits the drumhead, giving a much fuller sound.

QSticks®

Colored: QSTOCP01

Natural: QSTONP01

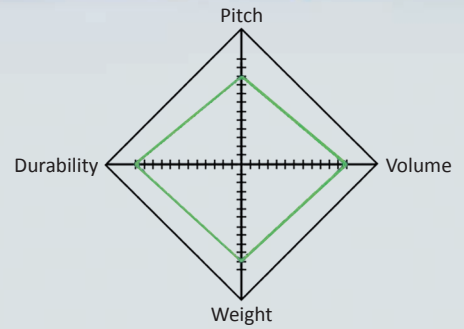

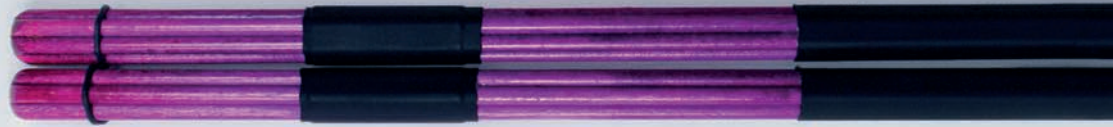

€ 36,00

PURPLE 2B

Scandinavian Maple (EU)

The thickest QSticks with the highest volume, but still a lot lower in volume than conventional drumsticks. A sound that lies between real drumsticks and rods but a lot "warmer". The QSticks Purple have an amazing sound on toms - one you've never heard before!

Suggested Retail Price including VAT effective Januari 1, 2022 and subject to change without notice.

Colored: QSTSCC01

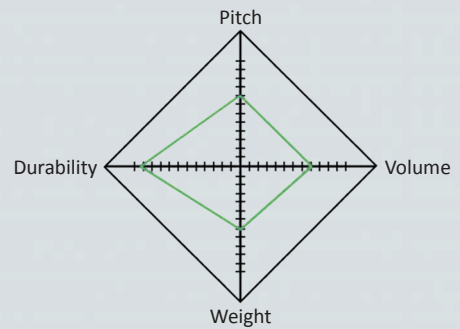

€ 39,00

CONVERSATION 55A

White Birch (USA)

The same rods as the successful QSticks Whisper, but double the amount: 74 rods in one pair! They have a beautiful warm sound just like the QSticks Whisper, but with more body. Less high tones, more “gritty” and a little more “solid” compared to the Conversation Natural.

Natural: QSTSNC01

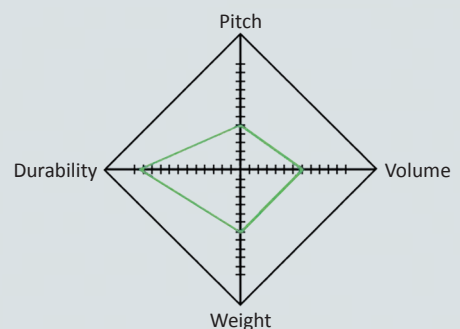

€ 39,00

CONVERSATION 55A

White Birch (USA)

The same amount of rods as the Conversation Colored. Because of a different sleeve positioning they have an unbelievable “gritty” sound and come closer to a heavy brush. This makes them ideal for cajon players! They also have a great warm sound on toms.
